ADMIRE OUR FIREPLACES

Capital Fireplaces was established over 28 years ago to manufacture and supply high quality, elegant and affordable fireplaces crafted from natural materials.

Since then the company has expanded and developed to become one of the leading UK suppliers of a wide range of superior fireplace products.

ONLINE FIREPLACE STUDIO

The Capital Fireplace Studio allows you to create your very own fireplace designs using our online custom software. Because there are so many different components involved in the making of a fireplace, it can be difficult to envisage it in its entirety. As you browse our brochure, you'll see that we try to showcase as many different designs as we possibly can, but it's not feasible to show you every combination possible. That's why we've introduced our online Fireplace Studio, giving you the tools to design and more importantly, visualise your fireplace before reaching a decision you're 100% happy with.

We continue to add new products and features, so be sure to keep an eye out. It is free and easy to use, so start creating your own fireplace today by visiting our website at www.capitalfireplaces.co.uk

OUR STONE AND MARBLE

CORINTHIAN STONE

Quarried in the Western Mediterranean, this honed limestone has a rich sandy colour that provides a delicate warm feel. Its background composition is magnified with unique small fossils and random sedimentary veining. A stone for those seeking a homely, cosy fireplace.

AEGEAN LIMESTONE

Sourced from the Eastern Mediterranean, our Aegean Limestone mantels are beautifully unique in character. Each mantel has its own individual fossil formation, veining and colour so no two are the same and is handcrafted into a variety of contemporary and traditional designs.

PORTUGUESE LIMESTONE

Formed over 50 million years ago and quarried in Portugal. The characteristic darker veins, intermingled with fossils of plants and animal life all add up to the beauty of this natural stone. Blooms and whips of fossilised leaves are not considered defects but part of the experience.

CARRARA MARBLE

Quarried in the Italian city of Carrara, this stunning material has been used in the building of many of Rome's most remarkable buildings including the Pantheon. Every one of our Carrara Marble mantels has its own distinctive appearance with beautiful, fine grey and grey blue veining.

LIBERTY WHITE

Liberty White Marble is famously known for forming the pedestal of the Statue of Liberty. It's a classical stone that when hand carved, produces a selection of stunning modern and time-honoured designs. Our Liberty White mantels are snow white and consistent in colour, yet soft grey speckled veins can be present.

TIMBER

Our Timber mantels are available in two elegant styles, they're available in any size and any colour, enabling you to have complete control over the look and feel of your fireplace. Both of our classic Timber mantels are handcrafted in Britain and take on a whole new personality when tailored to your exact requirements.

MADE TO MEASURE

Capital Fireplaces manufacturing and fabrication facilities are strategically located to utilise both the most advanced manufacturing technology available and the highest quality skills. Established long term relationships with quarries and foundries with highly efficient fabricators and stone masons, provide the backbone for the stringent quality and manufacturing standards we achieve with our collection.

We strive to offer our customers a great deal of flexibility in terms of the size of their chosen fireplace design. That's why we have implemented a Made to Measure service for a variety of our mantels in the following materials; Corinthian Stone, Aegean Limestone, Portuguese Limestone and Timber.

No matter how small or large your chimney breast, whether you'd like to change the overall size of your fireplace, make the shelf wider or reduce the rebate size, we can deliver a completely tailored service. Simply look out for the Made to Measure logo on our mantels throughout this brochure.

Greencast & Provident

HIGH EFFICIENT FIRES

The Provident and Greencast ranges have been designed to deliver higher efficient gas and electric fires for more traditional and ornate cast iron fireplaces. We have sought from the design stage to combine the two critical components, the fire and the cast iron mantel, in unison to deliver an aesthetically pleasing integrated appliance.

Greencast

FIRE	INPUT	OUTPUT	CHAMBER DEPTH	CERAMICS COALS	ENERGY RATING
Slimline Open Fronted Convector Class 2	6.5kW	2.6kW	90	✓	Decorative only**
Full Depth Open Fronted Convector	6.9kW	3.4kW	230	✓	F

FINISH: HIGHLIGHT

The HE Heybridge is pictured here with a HE Open Fronted Convector Fire, Jazz Yellow/Ivory Tiles, the Colby 55" Aegean Limestone Mantel and a 54" x 15" Polished Granite, Boxed and Lipped Hearth.

HE WANDSWORTH GREENCAST

FINISH: HIGHLIGHT

The HE Wandsworth is pictured here with a HE Open Fronted Convector Fire, the Hersham 54" Aegean Limestone Mantel and a 54" x 15" Polished Granite, Boxed and Lipped Hearth.

PROVIDENT

Our Provident Back Panel can help you create a fireplace that's beautifully modest with a higher efficiency, making it a fine centrepiece for any modern or traditional mantel.

The Provident Back Panel is available in a Black or Highlight finish and were specially designed to support our arched Provident Fireframes. By integrating the Back Panel and Fireframe, we are able to house more highly efficient gas and electric fires. Closing off the unit and adding a canopy to the Fireframe means we are able to increase the efficiency of the fires and ensure that the heat output is going into the room and not up the chimney. The Provident Fireframe can be housed with the fires described on page 101.

The Provident Highlight is pictured to the left with the Regent 57" Carrara Marble Mantel and Omega Gas Fire.

SUITABLE FOR GAS, ELECTRIC & SOLID FUEL

QUARTZ BLACK (NO BACK)
SUITABLE FOR GAS, ELECTRIC & SOLID FUEL

DIMENSIONS

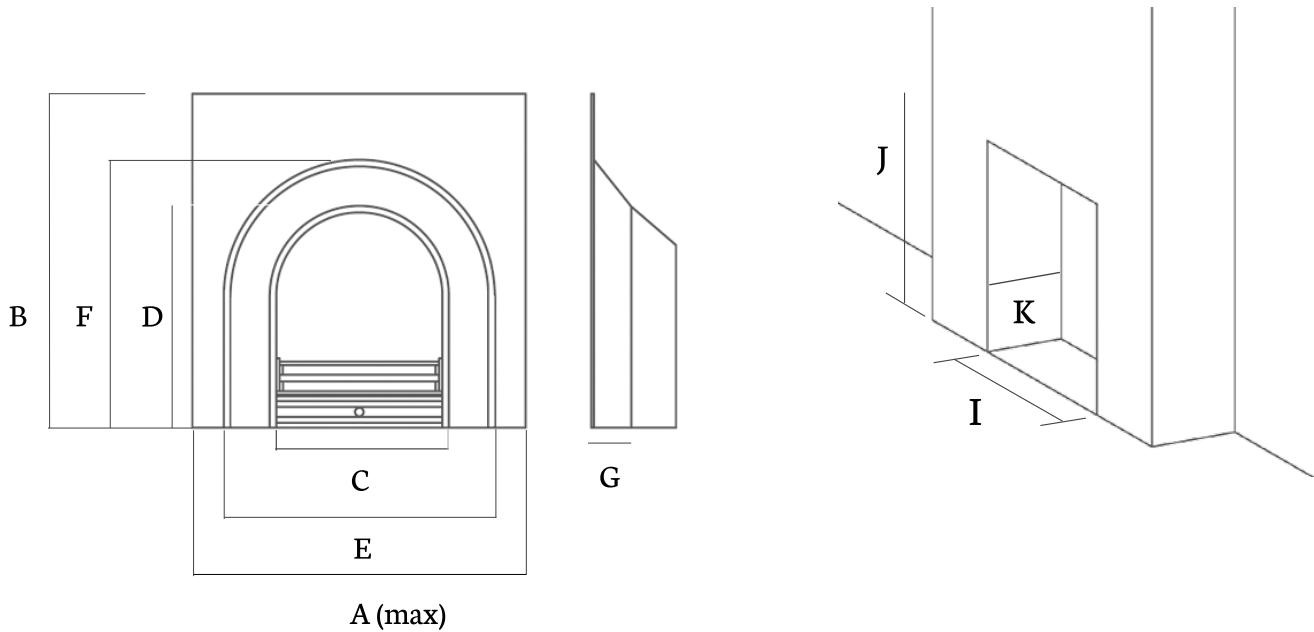

All products (except chrome finish) are suitable for burning solid fuel, however polished and highlighted products may tarnish. Only burn small fires to start with in order to temper the cast iron.

Before committing to a fireplace, please discuss your particular installation with your retailer who will provide expert advice and carry out a survey.

All dimensions are provided as a guide only and are subject to a tolerance of ± 12mm.

It is normal for tiles to craze over time.

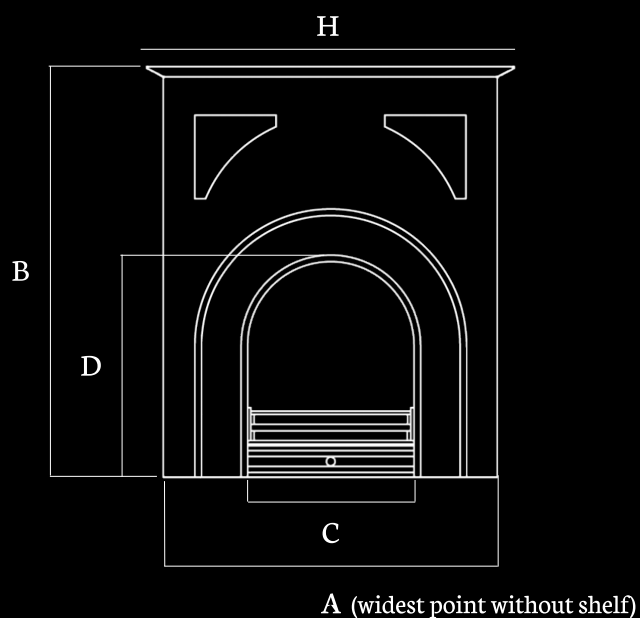

Most fires have a remote control option, please ask your retailer.

Supplied with deeper back as standard
*Available with deeper back (as optional extra) for larger burning area
**415w x 560h opening (when fitted with a backplate)

FIND YOUR NEAREST STOCKIST

All of our products shown in this brochure are available to purchase from your local Capital retailer, they are able to give you advice on all aspects of your fireplace requirements from pricing to surveys and fittings. Simply visit our website to locate your nearest retailer at www.capitalfireplaces.co.uk

Recent changes in legislation have been made in an attempt to reduce the emissions of all solid fuel burning appliances. As such solid fuel baskets/kits, combination fireplaces and cast iron inserts should not be used as local space heaters in order to reach and maintain a certain level of human thermal comfort. Whilst the actual heat output of these products has not changed from previous years they should now be viewed as for decorative use only.

Choosing the right fuel for your cast iron appliance is vital to ensure an enjoyable, trouble-free use. To burn solid fuel in a smoke controlled area, the law determines the appliance must be DEFRA approved or the fuel must be smokeless. We would only recommend burning very dry wood or smokeless coal, any other fuel or objects such as household waste will produce harmful gasses subsequently reducing the performance of your appliance.

Due to the nature of the materials and appliances used within this brochure, actual finishes and colours may vary slightly. Flames shown within the fires may also vary depending on gas type, fuel quality and the performance of the flue or chimney. For information on aftercare and maintenance, please visit our website: www.capitalfireplaces.co.uk

Capital Fireplaces Ltd reserve the right to change specification or de-list products at any time.
