

EDITION 2018 - 2019

Capital Fireplaces was established over 28 years ago to manufacture and supply high quality, elegant and affordable fireplaces crafted from natural materials.

Since then the company has expanded and developed to become one of the leading UK suppliers of a wide range of superior fireplace products.

MICROMARBLE AND STONE

All of our Suites are available in the following pictured micromarble and natural stone materials.

Micromarble is a great affordable choice if you would like an even and consistent stone finish. Moulded from crushed marble and specially developed resins, micromarble fireplaces feel like real stone. They are solid and cool to touch and are popular due to their easy wipe-clean finish. Please note a one-piece mantel is also available on all our micromarble suites.

Corinthian Stone, Aegean Limestone and Portuguese Limestone are natural materials and are beautifully unique in character. Each have their own individual fossil formation, veining and colour which gives each fireplace its own unique characteristics.

MADE TO MEASURE

Capital Fireplaces manufacturing and fabrication facilities are strategically located to utilise both the most advanced manufacturing technology available and the highest technical skills. Established long term relationships with quarries and foundries with highly efficient fabricators and stone masons, provide the backbone for the stringent quality and manufacturing standards we achieve with our collection.

We strive to offer our customers a great deal of flexibility in terms of the size of their chosen fireplace design. That's why we have implemented a Made to Measure service for all of our suites.

No matter how small or large your chimney breast, whether you'd like to change the overall size of your fireplace, make the shelf wider or reduce the rebate size, we can deliver a completely tailored service.

All fireplaces 42" - 54" shown in this brochure are available in the seven materials shown.

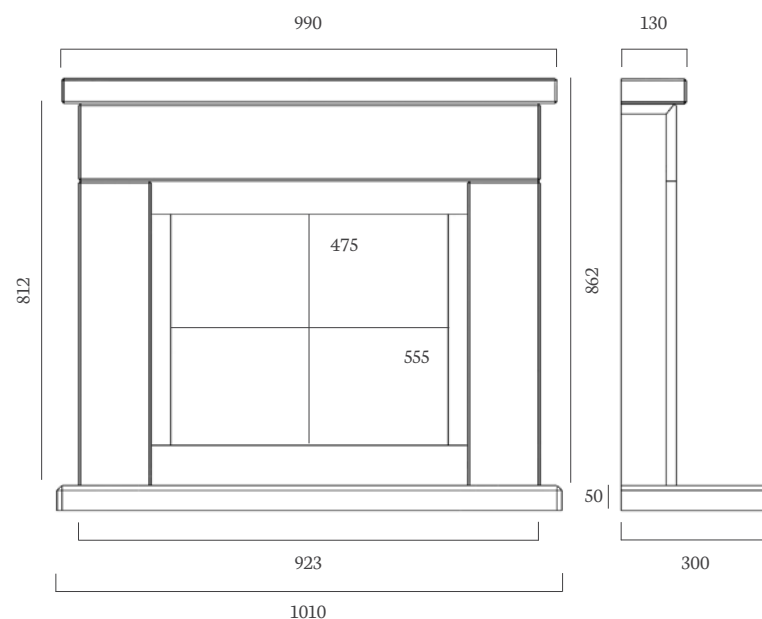

CATARINA 500

FIND YOUR NEAREST STOCKIST

All of our products shown in this brochure are available to purchase from your local Capital retailer, they are able to give you advice on all aspects of your fireplace requirements. Simply visit our website to locate your nearest retailer at www.capitalfireplaces.co.uk

Recent changes in legislation have been made in an attempt to reduce emissions in the UK. Whilst the actual heat output has not changed from previous years, selected inset gas fires shown in this brochure are no longer suitable for primary heating purposes and should be used in conjunction with the primary heating system as decorative only with occasional use.

Due to the nature of the materials and appliances used within this brochure, actual finishes and colours may vary slightly. Flames shown within the fires may also vary depending on gas type, fuel quality and the performance of the flue or chimney. For information on aftercare and maintenance, please visit our website: www.capitalfireplaces.co.uk

Capital Fireplaces Ltd reserve the right to change specification or de-list products at any time.
